REPORT to accompany the estimate for constructing sluices and excavating field channels in Chunnambur offtake, 10th Branch channel.

	RS.
Amount of estimate	2,915

The estimate provides for the construction of the sluices noted on the accompanying tracing. Provision is made for excavating seven field channels irrigating blocks of 50 acres and upwards. They are designed to run in 2 feet cutting, the banks being 3 feet above the bed with a bottom width of 2 feet and a bed fall of 1 in a 1,000. None of the channels will be maintained by Government. The work will be executed in accordance with the current departmental standard specifications.
